SHIVAM KUMAR PATHAK

Fullstack Developer • Frontend Developer • Backend Developer

Bundelkhand Institute of Engineering and Technology • 2025 Pass out

Projects

Portfolio 🔗

- A personal portfolio website to showcase projects and educational background, highlighting skills and achievements for professional presentation.

- The responsive portfolio includes Home, About, Projects, Education, Skills, and Contact sections, each with live links for easy navigation. With visually appealing hover transitions, it ensures a seamless and engaging user experience.

- The portfolio includes live projects in the project section with detailed information, allowing visitors to access each project with a single click for a live demonstration.

Skills Developed: HTML, CSS, Tailwind, Javascript, Bootstrap

Sprite animation game 🔗

- Game

- Control the sprite with arrow keys (right, left, down, up) in this game. Press Enter to burn enemies for points and aim for victory. Be cautious, collisions deduct points and lives. Burn enemies to score higher and secure the top spot!

- This game features a seamless moving background with a parallax effect, where the dog exhibits various animations based on its actions, while random enemies animate across the screen. Developed using JavaScript canvas, it offers an immersive gaming experience.

Skills Developed: Javascript, HTML, CSS

Study Notion 🔗

- An Edtech Web

- A learning and teaching platform for students and instructors respectively.

- In this app, an instructor can sell their courses, and a student can enroll in them.

Skills Developed: MongoDB, ExpressJs, React.js, NodeJs, Tailwind

Weather App 🔗

- To deliver accurate and real-time weather information.

- App fetches real-time data, displays dynamic weather info on UI.

- Access personalized, accurate weather updates for remote and current locations.

Skills Developed: HTML, CSS, Javascript
